【建設資材の共同輸配送システム】

The left screenshot displays a calendar interface for July 2006. It features a grid with columns for days of the week (日, 月, 火, 水, 木, 金, 土, 日) and rows for '搬入予約' (Loading Reservation) and '搬出予約' (Unloading Reservation). A legend on the right indicates various status colors: 実行中 (Executing), 待機中 (Waiting), 既読済 (Read), 完了 (Completed), 未実行 (Not Executed), and 全体停止 (Overall Stop). A '予約状況' (Reservation Status) section shows percentages for different reservation types.

The right screenshot shows a '選荷計画一覧' (Selection Plan List) with a table of dates and status indicators for various materials. The table includes columns for '会社' (Company), '品名' (Material Name), and '期日' (Date). The status indicators are color-coded to represent different reservation or execution states.
